ABOUT THE SANCTUARY CITY PROJECT

The Sanctuary City Project is a project of artists Sergio De La Torre and Chris Treggiari that engages communities to generate conversations around the history and policies of immigration in the US. The artists invite the San Antonio community to reflect on their ideas, personal experiences, and histories with immigration through this call and response activity. This activity is an extension of Sanctuary City Project's exhibition at Blue Star Contemporary on view from November 6, 2020 through May 9, 2021.
