THE CITY

Guadalajara

THE STAY

Casa Habita

The city of Guadalajara is one of the largest in Mexico, and boasts a vibrant contemporary art scene based on generational mentorship and friendship. The city is equally welcoming and fun, and a place where art conversations happen as easily as the tequila flows, where the food is special and unmatched, and spaces and places are both wonderful and surprising! Join us in Guadalajara and be a part of all the magic that makes the city spectacular!

The main ingredients that make Casa Habita impeccably unique are its location and design. Located in the trendiest area of Guadalajara—the Lafayette/Americana neighborhood—the original house was built and designed in the 40s and later joined with a new, contemporary construction, creating a larger building with distinct spaces.

This wonderful trip includes:

- 4 nights and 5 days at a luxury hotel
- Breakfast included with hotel
- 4 lunches and 5 dinners at delicious restaurants with menus designed especially for us!
- Meal planning around dietary preferences/allergies
- Airport transfer
- 5 days of comfortable, private transportation
- Studio visits with established & emerging artists
- Visits to contemporary art galleries, experimental spaces, cultural centers and respected institutions
- Bilingual staffing and troubleshooting on the ground with art and hospitality experts
- and more!
